Mr. Dwight R. Foster
Ultra One Corporation
112 East Avenue, Unit #8
Hackettstown, NJ 07840

Dear Mr. Foster:

Thank you for providing a one-month supply of various Ultra One products for my manager to evaluate in my McDonald's restaurant in Smithtown, Long Island. The feedback I received from the store manager was that the Ultra One products outperformed the McDonald's brands of cleaners hands-down.

The Ultra One G-5 product worked better cleaning the cooking grill and also had no fumes whatsoever to contend with. The Ultra One Industrial Clean product was used on all the floors and hard surface areas. The floors degreased faster and better without any streaking whatsoever and the hard surface areas became cleaner and brighter which proves Ultra One is a better cleaner than the Kay Chemical products required by McDonald's Corporation. My manager said the one-month comparison test proved to him that your Ultra One products are superior over the required Kay Chemical company products. Unfortunately, as I told your partner Tony Campo, even owning 17 McDonald's, unless there were numerous complaints from other store owners, it would be impossible to get a new cleaning product considered for use in McDonald's without a long drawn out process that would take forever.

I hope this helps you in some way to sell your product to other users and industries that aren't so complicated.

Thank you for the product education, if I can use you in the future as a vendor, I won't hesitate.

Thanks for showing me!

Sincerely yours,

Peter Hunt,
President
